DETAILED ACTION

Response to Amendment

1. The reply filed on 12/24/2003 is not fully responsive to the prior Office Action. While applicant did amend the claims and drawing to be consistent with that of the elected invention, Paper no.21 required applicant to also perform the following:

A. The amendment to the specification of 10/1/2003 appears to contain new matter. Under MPEP § 706.07(h)(VII) applicant cannot introduce new matter. Applicant can only in this instance file a continuation-in-part application under 37 CFR 1.53(b).

Applicant does not state that no new matter has been added to the specification. See MPEP § 608.01.

Within the response of 12/24/2003 there is no mention of the proposed new matter or amendment to the specification. The amendment must be in accordance with MPEP § 608.01. That is a statement that no new matter has been added.

B. Figure 3 text has been deleted by the amendment to the specification of the 10/1/2003 response; however, as set forth before figure 3 has to be canceled or reintroduced into the specification. ✓

2. Since the period for reply set forth in the prior Office action has expired, this application will become abandoned unless applicant corrects the deficiency and obtains an extension of time under 37 CFR 1.136(a).

The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. In no case may an applicant reply

Art Unit: 3641

outside the SIX (6) MONTH statutory period or obtain an extension for more than FIVE (5) MONTHS beyond the date for reply set forth in an Office action. A fully responsive reply must be timely filed to avoid abandonment of this application.
